

# Monitor Mounts

Optimize Your Workspace with Sturdy and Adjustable Mounting Options from StarTech.com

## Premium Mounts

- Easy to install with “slide & click” design and tool-less assembly
- Interchangeable parts simplifies enterprise deployments
- Flexible mounting with both grommet and c-clamp installation options included
- Mechanical spring monitor arms offer long-term performance without sagging or weakening over time.

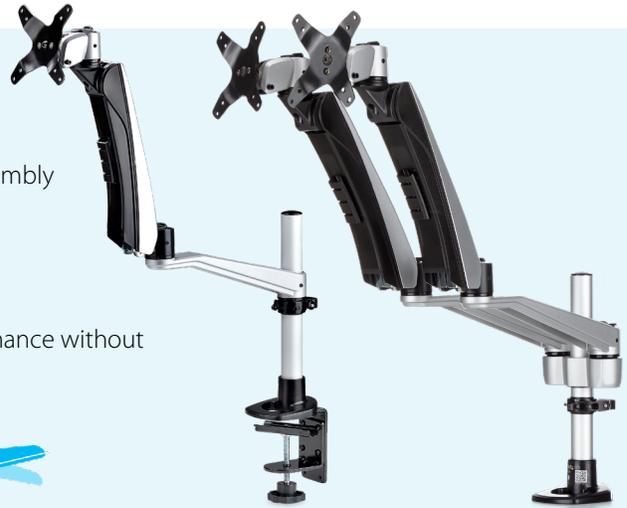

Monitor Tilt  
+/-90°

Monitor Rotation  
+/-90°

Monitor Swivel  
+/-90°

Single

1MP1ACG-MONITOR-ARM

Dual

ARMDUAL30

“Slide and Click” design simplifies arm length configuration for improved ergonomics

## Why Choose Mechanical over Gas Springs?

- ↕ **Smoother adjustments:** due to consistent tension
- ⚙️ **More durability:** more robust and resistant to wear over time
- 🛡️ **More reliability:** not susceptible to gas leakage, ensuring consistent performance
- 📦 **Better cost-efficiency:** less maintenance and replacement
- 🌱 **Environmental sustainability:** no pressurized gases, which could be hazardous if improperly disposed

## Performance Mounts

- Top-mount installation eliminates the need to crawl under the desk surface
- Set-up process expedited using power tool fitted with a 6mm hex bit
- Independently mounted arms enable multiple configurations such as top/bottom stacked monitors

Pull Tab Back

Release or Secure

Effortless monitor mounting using quick-release detachable VESA plate

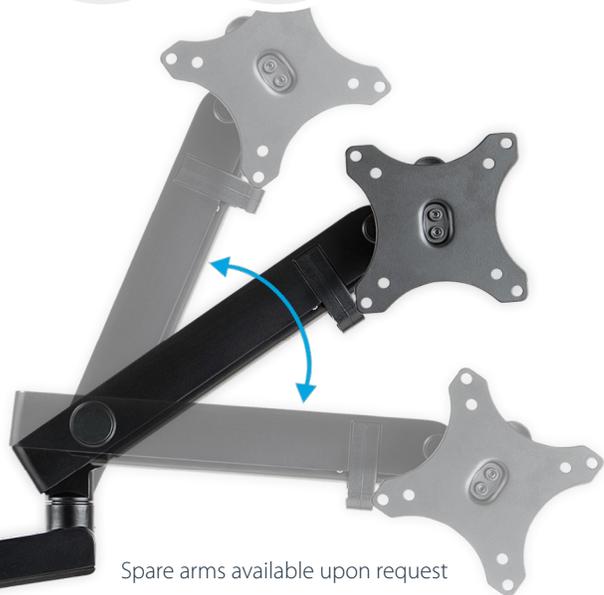

Dual

ARMDUALPIVOT

Single

ARMPIVOT2USB3

Spare arms available upon request

Innovative top-mount design

No need to crawl underneath the desk!

Use the included hex key to firmly attach the base to the desk

For larger deployments use a cordless tool with a 6mm hex bit

Clamp Mount

Grommet Mount
